

Topics covered in annual liver pathology update meetings.

Each year the meeting includes

- a summary of items of interest to pathologists from the AASLD meeting – Rob Goldin.
- The International Liver Study Group ('Gnomes') meets annually to discuss an area of liver pathology; a summary of these meetings provided by one of the Gnomes (usually Stefan Hubscher) is included in the annual update meeting.
- The cases from the two circulations of the Liver EQA Scheme are presented and discussed, and the scoring arrangements agreed at the update meeting.

In addition, most of the lectures are available on the website, listed here :

2017:	<p>Drug Induced Liver Injury – Philip Kaye</p> <p>Liver disease affecting children and teenagers – Rachel Brown</p> <p>Gnomes meeting topic: vascular pathology</p>
2016:	<p>Pathology of acute liver failure – Alberto Quaglia</p> <p>New insights into fatty liver disease – Rob Goldin</p> <p>Role of liver biopsy in assessing severity in chronic hepatitis – Asha Dube</p> <p>Gnomes meeting topic: patterns of acute liver injury</p>
2015:	<p>Liver biopsy in systemic disease – Chris Bellamy</p> <p>Alcoholic hepatitis – what did we learn from Stopah – Rob oldin</p> <p>What's Hot in liver pathology 2015 – Dina Tiniakos</p> <p>Gnomes meeting topic: acute hepatitis and acute liver failure</p> <p>Liver biopsy audit template for clinicopathological correlation – Richard Colling</p>
2014:	<p>Update on hepatitis E – Chris Bellamy</p> <p>What's hot in liver pathology in 2014 – Dina Tiniakos</p> <p>Assessing liver biopsies with more than one diagnosis – Sue Davies</p> <p>Gnomes meeting topic: well differentiated hepatocellular neoplasms arising in non-cirrhotic liver</p>
2013:	<p>Benign hepatocellular lesions – Chris Bellamy</p> <p>Gnomes topic – pathological assessment in HCC/HepaLumps down under – Stefan Hubscher and Alastair Burt.</p>

2012:	<p>Update in NAFLD – Stefan Hubscher</p> <p>Royal College of Radiologists – UK wide liver biopsy audit - Tony Nicholson</p> <p>Liver transplant pathology for the non-specialist – Sue Davies</p> <p>Gnomes meeting topic: sinusoidal lesions again</p>
2011:	<p>Role of liver biopsy in AIH, PBC and PS – Stefan Hubscher</p> <p>Gnomes meeting topic: sinusoidal lesions</p>
2010:	<p>early HCC – pathology and diagnosis – Alastair Burt</p> <p>Non-cirrhotic portal hypertension and incomplete septal cirrhosis – Stefan Hubscher</p> <p>Cholangiocarcinoma – Judy Wyatt</p> <p>Gnomes meeting topic: biliary mass lesions.</p> <p>Liver cell adenomas – Alberto Quaglia</p> <p>Literature update – medical liver diseases – Chris Bellamy</p>
2009:	<p>Hepatitis B and D – Paul Dhillon</p> <p>Hepatitis C – Judy Wyatt</p> <p>Other viral infections of the liver – Chris Bellamy</p> <p>PBC and its variants – Bernard Portmann</p> <p>Biliary infections – Alberto Quaglia</p> <p>Post liver transplant infections – Stefan Hubscher</p> <p>Liver in HIV – Rob Goldin</p> <p>Autoimmune hepatitis – Alastair Burt</p> <p>Bacterial and parasitic infection – Sebastian Lucas</p> <p>Liver in systemic inflammatory diseases – Adrian Bateman.</p>
